## Tips for Success

### Taking Notes

During class it is important to take good notes. Good notes help you remember information and ideas your instructor discussed during the class. Good notes can help you identify the important information that will be on tests or will be necessary for assignments.

- Before class, review your notes from the last class.
- Write down some questions to ask in class about areas you do not understand.
- Watch for clues from your instructor and write down the main ideas.
- Leave spaces to fill in missed information.
- Read over your notes and fill in missing information.
- Compare notes with someone in your class.

### Taking Tests

- Learn the information as you go. Don't try to learn everything the night before the test.
- Use practice tests or have someone quiz you before the test.
- Use your time well when taking a test. Do the easiest parts first.

### Reading

- Scan the whole chapter you are about to read and get to know the main points before you start reading.
- Make questions out of the titles. When you are reading, try to answer these questions.
- When you've finished reading, write down a short summary for each section you read.
- When you've finished reading, review the questions you made up and see if you can answer them.

## **Writing**

When in school, you will have to write essays to see how well you understand the information and how well you can use critical thinking to discuss a topic.

- Make sure you understand what your topic is.
- Start learning everything you can about your topic and don't wait until the last minute.
- Make an outline and plan your paper well.
- Most essays contains a thesis (what it is you are going to talk about), a few main ideas (the points you want to make about your thesis), support for your ideas, and a conclusion (a summary of the main points and the thesis).
- Write a rough draft of all the ideas you want to include.
- Re-read what you wrote and see if it makes sense.
- Have someone else read the paper. They don't have to know the material, but they should understand English writing rules. You should have explained your topic well enough that anyone can understand it.
- Make corrections to content and meaning first.
- Finally, proof read for grammar and spelling mistakes.
- Don't forget to use spellcheck!

## **Presentations**

At some point during your studies, you will be asked to make a presentation in your class. Just like with writing, it is important to plan early so that you have lots of time to practice. Good planning and practice, helps make good presentations.

- Make sure you understand what your topic is.
- Start learning everything you can about your topic and don't wait until the last minute.
- Make an outline including 3-5 main points you want to make.
- Clearly understand these points.
- Include visuals, stories and quotes.
- You can memorize your presentation, but make sure you are not just reciting.
- Practice in front of a mirror, or video recorder and time your presentation.
- Begin your presentation by telling your audience what you will be talking about including your main points.
- When you are nervous, you tend to speak faster, so talk slower than you think you should.
- Make sure to summarize your main points at the end of your presentation.
- Thank your audience and ask if they have any questions.
- If you don't know the answer to a question, just say so, and that you let them know when you find out.

## **Managing Your Time**

- Make a long-term schedule which includes all important dates and holidays (i.e. Start of term).
- Set up a calendar for the term, including all your assignment due dates and test dates.
- Keep it in a place you see everyday like the inside of your front door.
- Keep a daily to-do list and write out the things you must do each day. Keep it with you so you can check things off.
- Prioritize and do the most important things first.
- Estimate how long it takes to do tasks and then plan accordingly
- Make sure you have time in your schedule for eating, sleeping and fun.
- Take some time each week for all the areas of your life. It is important to balance school, family, friends and social activities.
- Make sure you are sleeping once every 24 hours. You will be more productive if you rest your brain and body regularly.

## **Set Career Goals**

Career goals are the focus and the reason behind all the hard work you are doing now. When you don't have a sense of what you are moving towards, things can seem pretty pointless. Knowing how each assignment relates to your future career can be a strong motivator.

## **Dealing with Personal Issues when Studying**

We all have things outside of school that can add pressure when studying. It is important to recognize when life is getting in the way of your studies. For example, you may have to find a new place to live, you may be homesick, or maybe you are having trouble sleeping. If you are having a hard time because of personal issues, talk to your Student Advisor or go to your health care provider for a referral to someone who can help.

## **More than Just Taking Classes**

Success at Arbutus College is more than doing well in class. It means knowing what you need to do to complete your studies. There are things that you need to know that you will not always be told or reminded of, so make sure you are familiar with this Student Handbook. And get to know your Student Advisor.

Some things you should know are:

- Where to find your Student Advisor
- Deadlines for adding/dropping classes
- Requirements for your program
- GPA requirements for continuation in your program
- Where to find Student Accounting
- Places where you can eat on campus

- Backing up your data is your responsibility. USB drives are recommended for back-up and data transfer. If you are planning on moving data between school and home, a USB drive is ideal.
- Backing up important data at least every couple of days and critical information more often, to multiple locations (USB drive, home computer) is highly recommended.
- If you have a Google account, you can also back up to Google Docs.

### Reporting Computer and/or Equipment Problems

If you are in class and you have a software or equipment problem, you should first talk to your instructor. He/she may be able to help you solve the problem. If that doesn’t work, try rebooting your computer if this is safe to do. You should never force the equipment or try to modify software programs.

If you require additional support during class or open lab time contact your Student Advisor.

---

## **Course Changes**

The deadline for any course changes (withdrawals, additions, section changes, schedule changes) without having the course appear on your transcript, is the Friday of Week 1 of the new term at 4:00 pm. To request a course change, you must complete a Student Advising Form request.

Student Advising Forms are available in the Student Services office or visit your Student Advisor. If you have requested a course schedule change, you will be notified through the contact information provided on the Student Advising Form whether your change was possible or not. Your attendance will be taken in the courses you are officially registered – no unofficial switching of classes is allowed because we must keep track of each student's attendance for their scheduled classes.

Students who withdraw from a course during Week 2, will receive an 'Incomplete' on their transcripts. Proper forms and documentation must be filed on or before Friday at 4:00 pm of the second week of class. Students who fail to file any documentation but simply stop attending or completing coursework, tests or exams will fail the course and this grade/failing mark will be shown on their transcript.

For more information, please see the Withdrawal Policy in the Student Handbook.

---

# What to do in an Emergency

---

## 911 Procedures

Do not hesitate to call 911 in matters of life and death or if you are not sure about the seriousness of a situation. 911 is for police, fire or medical emergencies when immediate action is required: someone's health, safety or property is in jeopardy or a crime is in progress.

*When you call 911:*

- You will be asked if you need "police", "fire" or "ambulance" and for which city (Vancouver). Once you indicate which service you need, your call will be immediately transferred.
- Stay on the line and follow instructions. Your 911 operator will stay on the line with you to make sure your call is answered by the agency you requested.
- You will need to know the location (Vancouver) including the name of the building (Arbutus College), the address (473 West Hastings Street), phone number (604.622.4446) and room name (if you don't know, say which floor of the building).
- Provide any other information that will help emergency personnel find you (e.g., landmarks, cross streets)
- Listen carefully, speak clearly and try to remain calm. 911 Operators are trained to ask specific questions in priority sequence. 911 Operators are relaying the vital information you provide to dispatchers and to the emergency personnel on their way to help you.

Students and staff are advised not to talk to the media in a crisis situation. It is important that emergency personnel provide official and accurate information about the situation.

### **How do I Know if it is an Emergency?**

It's better to be safe than sorry, so if you're not sure, err on the side of caution. Tell someone: a faculty member, a staff member, a supervisor, or call 911.

# Campus Evacuation Route – Second Floor

## Fire Escape Route Upstairs

meeting place: parking lot between Waterfront station and Steamworks restaurant

---

## Emergency Plan

If there is an emergency situation like a fire, hazardous material release, bomb threat or earthquake, the Campus will be evacuated. Whenever a fire alarm sounds, it must be treated as a real emergency and the building must be safely evacuated.

*If you have to evacuate:*

- Proceed calmly to nearest exit – if there is a fire, check doors for heat before opening.
- Follow instructions from emergency personnel.
- Do not use elevators.
- Walk – don't run or push. Use handrails in stairwells.
- Help people with disabilities.
- Move away from the building quickly – watch for falling glass and other hazards.
- Move to your emergency meeting location (parking lot between Waterfront Station and Steamworks restaurant) and stay there so that everyone may be accounted for.
- Do not re-enter the building until told by emergency personnel that it is safe to do so.

### In Case of Fire

*If you see a fire:*

- Activate the fire alarm, alert others, and move everyone away from the area of the fire, closing doors behind you.
- Call 911 (see 911 Procedures)
- Leave premises immediately following escape routes

*When a fire alarm is activated:*

- Treat it as a real emergency.
- Evacuate the building and proceed to the emergency meeting location.
- Never open a closed door without checking it first for heat – if the door is hot, do not open it. If not hot, open it slowly, standing behind it to one side, and be prepared to shut it quickly if fire is present.
- Use the stairwell, go down to the ground floor, never go up.
- Never use elevators if fire is suspected.
- Once outside, go to your emergency meeting location and stay there so that everyone may be accounted for.

*If clothing catches on fire:*

- Yours:
  - STOP where you are.
  - DROP to the floor.
  - ROLL around on the ground.
- Someone else's clothing is on fire:
  - Grab a blanket, rug or coat and wrap them in it to smother the flames.

*If you are trapped in a room by fire:*

- Block smoke from coming into the room by placing damp clothes around and under the door.
- Retreat, closing as many doors as possible between yourself and the fire.
- Phone 911 and give the fire department your exact location; if can't call, be prepared to signal from a window. Do not open the window or break glass unless absolutely necessary – outside smoke may be drawn in.

*If you are caught in smoke:*

- Drop to your knees and crawl.
- Breathe shallowly through your nose, holding your breath as long as possible. Use a damp cloth over your mouth and nose to filter out smoke.
- Stay calm. *Remember how many doors you need to pass before you reach the nearest exit. In heavy smoke you can crawl on the floor. Watch the base of the wall and count out the number of doors you pass and you will know when you have reached the exit door (even if you can't see that it is the exit).*

### **If There is a Bomb Threat**

- All bomb threats should be taken seriously.
- The person answering the phone call should remain calm and:
  - Try to keep the caller on the phone as long as possible.
  - If they can, let someone else know about the situation so that they can call 911 while the caller is still on the line.
  - Listen to the caller and ask the following questions:
    - Where is the bomb?
    - When will it go off? What kind is it?
    - What does the bomb look like? (i.e. Contents, size, shape, color etc.)
    - What will make it go off and when?
    - Why are you doing this?
    - Who are you?
  - Try not to upset or panic the caller.
  - Take notes of the exact words of the caller and his/her accent.
  - Try to determine the if the caller is male or female.
  - Listen for any background music or noise.
  - When the call is over, immediately call 911 and ask for “police”. Give your name, location and telephone number to the police. Let them know about the situation, when you received the call, and any information you may have about the caller or the bomb.
  - Inform the College Director of the situation.
  - If instructed to evacuate, follow regular evacuation procedures.

### **If You See a Suspicious Package**

If you see a suspicious package, object, etc. report it to a staff member immediately. Do NOT touch or move it in anyway.

- **D**irect pressure on wound

- If patient is not breathing:
  - Open the airway, push forehead back and hold
  - Clear out mouth, if necessary, with fingers
  - Give mouth to mouth resuscitation (one breath every five seconds)
- If patient is breathing:
  - Place him or her in the recovery position to prevent choking

### Medical Services Plan (MSP)

Medical Services Plan of BC ..... 604.683.7151 or 1.800.663.7100

A BC resident is someone who is a citizen or permanent resident of Canada, makes his/her home in British Columbia and is physically present in BC at least 6 months in a calendar year.

#### *Out-of-Province Students and International Students*

Apply for MSP as soon as you arrive in BC rather than at the end of the waiting period to allow time for your application to be processed. Coverage eligibility occurs after a waiting period of three months.

- Out-of-province students: Make sure to have coverage with your previous medical plan during the waiting period. If you choose to maintain medical coverage from another province during and after the waiting period, please be aware of additional costs for services, such as ambulance.
- International students: Contact a private health insurance company for coverage during the waiting period.

## Attendance Policy

At Arbutus College, we want to provide you with the best possible learning experience. The Attendance Policy requires that students regularly attend classes, to successfully progress through their program.

1. In the event that the student is unable to attend class, they must contact their Student Advisor (604.622.4446 or [studentadvisor@arbutuscollege.com](mailto:studentadvisor@arbutuscollege.com)) before the class start time to inform the College. *(Please provide your Student ID number when contacting the College.)*
2. Absences for more than two classes because of illness require a doctor's certificate.
3. To avoid receiving zero marks on class assignments, presentations, examinations, etc., the student must call ahead and provide a doctor's certificate if they are absent.
4. If students miss three classes without a valid reason their progress in a course or a program term will be jeopardized and may lead to unsatisfactory results.
5. Students need to attend at least 75% of the classes in order to be eligible to present their final exams; any exceptions must be authorized by the College Director. Being eligible to participate does not guarantee successfully completing a course.
6. If students continue to miss classes without a valid reason, they will be progressively disciplined by warnings, verbal and written and may be dismissed from the school.  
  
Valid reasons for missing classes include:
  - a. Illness with doctor's note
  - b. Family emergency
  - c. Personal leave (with official approval)
  - d. Official break (with official approval)
7. Students are also expected to be on time to all classes. Students who are late more than 10 minutes from the start of class or after returning from a class break may not be admitted to class until the next break (or class). This will count as a half absence. Students that come late to class in more than three occasions will receive a warning letter and a 10-point deduction from his/her final grade for the course.
8. Instructors at the start of the course may at their discretion have a more stringent policy as long as it is clearly stated in the course outline for the course and approved by the College Director.

*SABC NOTE: If students receive funding from Student Aid BC (SABC) and “stop attending classes, drop below your required course load, or fail to maintain the minimum number of weekly instructional hours for non-academic programs for your entire study period, but you do not formally withdraw from school, you may still be considered withdrawn for student assistance purposes. (continued on next page)*

*You will be considered withdrawn if:*

- *You miss two consecutive weeks of study (no attendance), or*
- *You drop below 60% of a full-time course load for three consecutive weeks of study, or*
- *You miss enough classes that school officials feel you cannot successfully complete the program*

*If you withdraw from school two times while receiving B.C. student financial assistance, you will be denied further funding by StudentAid BC.” <https://studentaidbc.ca/maintain/responsibilities#scholastic-standing>*

*SACB NOTE: If students receive funding from the Saudi Arabia Cultural Bureau (SACB), the SACB needs to be informed when a student does not attend classes for 3 days in a row (for whatever reason: sick, non-attendance, etc).*

---

## **Break from Studies Policy**

Students may request a break from their studies in programs 10 months or longer, after successfully completing three months of study. Students must request a break from their studies prior to the start of an academic term. Your break must coincide with an academic term.

- The break must be approved by the Student Advisor and/or the College Director before the student goes on a break.
- Students complete a Student Advising Form with the Student Advisor at least three weeks before their break.
- The remainder of a student’s program must resume after the scheduled break(s) is/are taken.
- There are no refunds for programs that are cancelled during or after a scheduled break from studies.
- If a student is on break and needs to extend their break, they must contact their Student Advisor or College Director to request an extension of their break.

Students requesting a break must understand that taking a break from their studies may result in one or more of the following conditions:

- A delayed graduation date
- Required repeat of courses due to failed or deficient grades upon return to College
- Placement within revised curriculum
- Placement granted on space/course availability basis
- Revision of their financial plan
- Increased tuition rate

*NOTE: Withdrawing from a course may mean withdrawing from your program, which has financial implications as outlined in your Student Contract. This can include “taking a break from your studies.” If you are making any changes to your studies, you need to contact your College Director to discuss the implications which could include refund or withdrawal penalties.*

*SACB NOTE: If students receive funding from the Saudi Arabia Cultural Bureau (SACB), the SACB only allows for 1 holiday during the whole stay of the student in school. The maximum time a student receiving SACB funding can be on holiday is 5 weeks, but it cannot interfere with an academic term. This means that a Saudi student studying at Arbutus College can only request a 4 week holiday (because of the length of an academic term), and they cannot request it from the middle of a term to the middle of next term.*

## English Language Studies

We believe that immersion into an English environment is the best way for students to progress. Our curriculum has been professionally developed to incorporate the Canadian Language Benchmarks (CLB), giving us a solid framework of reference for learning, teaching, and assessing English as a Second Language. Created by Canada's Citizenship and Immigration Department, the benchmarks are a clear descriptive scale of communicative proficiency in English as a Second Language expressed as nine levels or reference points.

On orientation day, students studying in the English Language Programs will be required to participate in proficiency assessment tests. Our innovative assessment methods allow students to progress through these levels by demonstrating language knowledge and skills in communicative and performance tasks, not simply by taking and passing tests. Students feel confident that they are learning English and can easily follow their progress in our programs. It takes four months to complete each level, but this depends completely on each student's progression and commitment to his/her studies. Four months in a level does NOT guarantee the student will move up. These benchmarks form the foundation for our levels as follows:

Level	Level 1	Level 2	Level 3		Level 4		Level 5	Level 6
CLB	1-2	3	4	5	6	7	8	9
TOEFL Score	0-6	6 - 10	10-19	19-29	30-40	40 - 53	53 - 71	71 - 81
TOEIC Score	<250	250- 300	300 – 400		400 - 600		600 - 700	700 - 900
IELTS	1.5	3.0	3.5		4.5		5.5	6.5

## English Only Policy

Studying abroad is a good way for students to learn and experience a new culture. At Arbutus College we want to provide you with the best possible English learning experience. The English Only Policy requires that students speak only English during all campus activities – this means in class, on breaks and when using the computers.

The following penalties may be enforced with students who disregard the policy:

- The 1st time an instructor or staff member hears a student use a language other than English on campus, the student will be issued a yellow warning card and they will receive a 1% penalty will be applied to grades from all classes in the current term. The infraction will be recorded in the student's file.
- The 2nd time: the student will again be issued a yellow warning card and they will receive a 2% penalty will be applied to grades from all classes in the current term. The infraction will be recorded in the student's file.
- The 3rd time: the student will be issued a red warning card and they will receive a 5% penalty will be applied to grades from all classes in the current term. The student must appeal in writing to the College Director why they would like to return to the program and their plan to follow the policy. The infraction and appeal will be recorded in the student's file.
- Students who continue to disregard the policy shall meet with the College Director and may be required to leave the College.

Because Arbutus College is a friendly campus, we prefer to motivate our students to speak only in English. If students use only English:

- They will learn English faster.

- They will make friends from all over the world.
- They may receive a green card to win a prize presented at the graduation ceremony.

## Grade Appeals Committee

The Grade Appeals Committee meets as required and hears appeals dealing with grades achieved in credit courses. The role of the Committee is to determine if the grade given to a student in a course by his/her instructor was assigned by the instructor appropriately applying evaluation policies and/or procedures.

Committee members are appointed by the College Director and are composed of the following members:

- a. The College Director (Committee Chair)
- b. A Student Advisor
- c. Two instructors from the Faculty in question

No person who has made a determination of a student's grade at any level shall be allowed to play any part in any appeal subsequent to that determination.

Alternates will be allocated by the College Director for those appeals in which any one of the Committee members may be perceived as having a conflict of interest.

The Committee will either confirm the instructor's grade or send a request to the College Director for the grade to be changed. In both cases, a written summary of the finding leading to the resolution must be presented to be included in the student's files and the College's grade records.

---

## Grade Appeals Policy

The purpose of this policy is to present an opportunity to students to make an appeal for a final grade obtained in a study course.

### Procedure

1. If the student would like to dispute a final mark, the first step for the student is to contact his/her instructor and request to a review his/her mark. If an error in marking is present after the instructor's review of the student's marks for the course, the instructor will notify the College Director that a grade change is required. The instructor will submit a Change of Grade Form with the new grade to the College Director. The College Director will approve the change of grade and will provide the Change of Grade Form to the Records Officer to make the appropriate change in the student's transcript.
2. If after the student has gone through a grade review with his/her instructor, and he/she is still unsatisfied with the outcome, the student must notify the College Director in writing that he/she would like to have a formal review of his/her marks.
3. The College Director will gather all documentation from the instructor in regards to assignments, attendance, exams, etc. and will call for the Grade Appeals Committee to review the documentation.
4. The review of the student's marks by the Grade Appeals Committee will have only three outcomes which will be final:
  - a. Mark is unchanged
  - b. Mark is raised
  - c. Mark is lowered
5. The Grade Appeals Committee will then notify the instructor and student of the

outcome of the grade review, and if necessary will notify the Records Officer to make the appropriate change in the student's transcripts.

## Work Experience/Field Placement Policy

This policy clarifies the co-op/practicum policies.

### Procedure

1. Co-op and Practicum terms:
  - a. Complete the application for Co-op/Practicum and submit it no later than 8 weeks before the beginning of your work term. The students must also complete their resumes at the same time.
  - b. An interview with the student advisor or the director refines the information necessary for the selection of appropriate prospective employers. External groups and companies may be engaged by the college to help with this process. This will be completed immediately after the submission of the documentation.
  - c. The college arranges job search assistance with the help of external employment agency or advisor. Students, however, must accept responsibility for finding and accepting a position. They are given information, leads and suggestions but must take responsibility for arranging interviews, job search and acceptance of any jobs. Once a job offer has been given, the student may not unreasonably decline to accept a position. Failure to accept a position deemed acceptable by the college will terminate further assistance to the student and may end the student enrollment in the program.
  - d. The student completes a job interview or interviews and reviews the prospective company(ies) with the external agency.
  - e. The college establishes that the student met all the course requirements for work term placement.
  - f. Work term students must have valid work permits.
  - g. The college reviews the results of the interview with the employer and or an external agency and the student and confirms job offers, or arranges for another interview.
  - h. For co-op/practicum positions, the student accepts a position in direct discussion and negotiation with the employer, with help and advice from the school's advisor or an external advisor or agent.
  - i. During the placement, the external agency will be in contact with the student and the employer. On the basis of informal and formal feedback, an overall evaluation will be completed.
  - j. Following the work term, the student receives a diploma or another credential (depending on specific program registration) at a graduation ceremony.

The main objective of the Work Experience component of your program is to expose students to:

- A professional work environment to see how their skills fit into the work force.
- Look for opportunities to expand their current business & industry knowledge.
- Help develop self confidence in the work place.
- Provide networking opportunities in industry.
- Provide students an opportunity to see where their classroom instruction and past experience will integrate into the work force.

From the students perspective the co-op/practicum coupled with previous work experience and current academic skills offers an opportunity to look at the working world and the opportunity to use some of their employment skills.

- The supervised working/learning opportunity at the host organization enhances the student's knowledge, judgement, attitudes and practical experience related to their career development.
- As students may be in contact with information at their host organization that is of a private nature they are expected to honour and respect all information that is of a confidential or propriety nature.

The Work Experience component in the program is planned to start immediately upon completion of the academic portion of the program. Unless otherwise agreed by the student and the college, the work experience component will take place in host employers located within the Greater Vancouver region.

The following are the required expectations for a student during his/her Work Experience:

1. You MUST HAVE prior authorization in writing (Host Agreement) from Arbutus College BEFORE engaging in, or accepting employment for Co-op/Practicum credits.
2. You are expected to be present and on time for your scheduled co-op/practicum work times.
3. If you are unable to report to work or will be late for any reason, it is your responsibility to inform your supervisor as soon as possible.
4. You will maintain appropriate personal appearance and adhere to the dress code according to your host company's standards.
5. You will work with your supervisors and follow their direction while at work in your placement.
6. If you have a disagreement with your supervisor/company that you cannot resolve, contact Arbutus College immediately.
7. You will follow all safety rules and common safety practices with your host company.
8. You will treat all co-workers with respect at all times.
9. You will treat all company information and documents as private and confidential and understand that company information may not be shared with people outside of the company.
10. You are required to complete and submit a Monthly Report to Arbutus College during the last week of each month you work with your host.
11. You MAY NOT RESIGN from a work placement without prior discussion with the Student Advisor or College Director at Arbutus College.
12. You understand that your failure to complete work as assigned may affect your ability to graduate in a timely manner from Arbutus College.
13. I understand that my Co-op is a learning opportunity required for credits and not be treated as a source of income while in school.
14. You are required to attend as many Informational Interviews as possible as lead up to your placement.
15. In order to qualify for Co-op/Practicum credits, you are expected to be working in a placement directly related to your academic program.
